

Candidate Information Sheet

Hello! My name is Jill Poldervaart and I would love to continue as your Twin Lakes of Brandon HOA Treasurer for the 2022-2023 board. My husband, son and I moved into this beautiful community in May of 2020 and could not be happier to be here! Our 20 year old son joined the Army shortly after we relocated and is currently serving our country. I am a DoD (Department of Defense) contractor having been with my company for 10 years. I have been blessed to be able to continue my position via telework from Florida. We have met many of you around Lake Michaela as we walk our dogs, Radley & Asher, quite regularly. My husband takes many photos of the incredible wildlife, occasionally posting them to the Facebook page (aka Vaarticus). We love to see the Osprey diving in the water after its prey or the alligator swimming gracefully, to the Anhinga coming out of the water with its catch of the day.

I have been the Treasurer for Twin Lakes since the middle of January 2021, coming in mid way after the former Treasurer resigned. Over the last year I've had time to review and understand the nuances of the position. I work seamlessly with my fellow Board Members as well as Green Acres Management. As a collective group, we work together in the best interest of the community. My direct prior experience was the Treasurer of the Pine Village HOA in Severn, MD (2016-2020). There were approximately 30 homes in our previous neighborhood and we were able to get to know our neighbors much the same way as here, walking the dog 😊

On a grander scale, I also previously set the yearly budget for the Wyoming Game & Fish Division, Casper, WY Region. To include allocating funds for game wardens homes upkeep/repairs, the Casper office and maintenance of the Casper Region out buildings. I also managed the account for the Casper Regions fishing and wildlife license sales.

As a homeowner in Twin Lakes I have a vested interest in our fine neighborhood. I hope to continue to serve my neighbors in this volunteer capacity.
